# Rights Respecting Schools

The Award improves the lives of children in the UK by taking a whole school approach to putting children's rights at the heart of school policy and practice.

# Voices Foundation

- The Voices Foundation has been working since 1993 to help schools, academies, Music Education Hubs and other partners across the UK to establish sustainable and effective music education in their settings. Everyone has a voice, and singing is a powerful way for children to become proficient musicians.
- They transform music in schools by developing teachers' and music educators' knowledge, skills and confidence in how to teach music effectively. Extensive teacher development programmes (led by Voices Foundation Music Consultants) combined with inspiring and immersive choral singing programmes (led by professional Choral Directors) are enriching schools.
