Accessibility Plan (Woodpecker Hall Academy)

Aims

In line with the requirements of the Equality Act 2010 the purpose of this plan is to: -

- Improve the availability of accessible information to all pupils.
- Increase the extent to which pupils with disabilities and those disadvantaged pupils can participate in the curriculum.
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided.

We aim to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind and links to the Trust vision to help as many children as possible to succeed at school and in life and our mission to working within disadvantaged communities to make a real and lasting difference, in order to give children the very best chances to succeed academically and socially i.e. Education, Community and Opportunity.

We are also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues. We also support any available partnerships to develop and implement the plan. We have included a range of stakeholders in the development of this accessibility plan, including [Governors, Trustees, children and parents].

If parents wish to raise any concerns about our accessibility plan they can do so via our complaints procedure available on the policy page of the school website.

Legislation and guidance

This plan meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#). The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments, such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a pupil with disabilities faces in comparison with a pupil without disabilities. This can include, for example, the provision of an auxiliary aid or adjustments to premises. This plan complies with our funding agreement and articles of association.

Monitoring arrangements

We will review this document at least every 3 years from publication date and more frequently if necessary.

Links with other policies

This accessibility plan is linked to the following policies and documents:

- Risk management strategy
- Health and safety policy
- Equalities information and objectives
- SEND Policy and information report
- Supporting pupils with medical conditions
