

29<sup>th</sup> March 2021

**LFT-PCR Negative Test letter**  
**Negative PCR Test in Buttercup Class - Woodpecker Hall Academy**

**No Isolation Needed**

Dear Parent/Carer,

Following my previous letter, informing you that a member of staff had a positive test from a Lateral Flow Device (LFD), I can now tell you that the member of staff has **tested negative** in their full PCR test. This means that your child no longer needs to self-isolate.

Buttercup class will reopen as normal from tomorrow, 30<sup>th</sup> March 2021. We look forward to seeing your child back at school in the morning, at the usual time.

Thank you for supporting us with this process as we help to minimise the infection rate within our school community

If you have any queries about this letter, please contact the school office on the numbers above.

Kind Regards,

Nicky Ross  
Headteacher

Woodpecker Hall and Cuckoo Hall Academy
