School Values Competition

Dear Parent/Carers,

Now that the schools have merged together, we have taken this opportunity to look at the values of each school and use these to establish the new Woodpecker school values.

The staff and children have thought carefully about what we want our school to feel like and how we want to develop our young people and prepare them for a successful future. Together, we want to grow confident; happy children who take part and make a real difference now and in the future.

With this in mind, we have selected the following values which we will be developing across our school.

The Woodpecker Values:

Respect	Responsibility
Courage	Honesty
Resilience	Kindness

To help us talk about and show these values, we would like children to design a cartoon character that reflects each of the values. Your child may want to design one character or all six characters. Your characters must:

- Reflect the value
- Be the same colour as the values above

The winning characters will be professionally designed and used throughout the school.

Please draw your character on plain white paper. Pupils can ask the teacher for some paper and pens if needed. All designs must be handed into your class teacher by **Friday 8th October 2021**. After that, Miss Vincent and myself will be selecting the successful designs.

Good luck and thank you for helping your child take part.

Kind Regards,

Nicky Ross
Headteacher
NSCT Leader of Primary Education
