

Woodpecker Hall Academy Learning Web: Year 1 Summer 1

Inspiring Awe and Wonder:

Planting beans and recording growth.

Key Dates:

21st May – Bank Holiday

5th May – Bank Holiday

Maths

This half term the children will continue to work on numbers up to 100 by revisiting adding and subtracting 1- and 2-digit numbers. Using these skills they will develop their problem solving skills to solve missing number questions and use the vocabulary more than, less than and equal to. They will learn explore counting in 5 and consolidate counting in 2s and 10s.

English

To begin the half term, the children will be exploring and writing shape poems, based on their favourite fruit and vegetables. The children will develop their story writing skills by reading, acting out innovating a story based on Supertato, and creating their own evil vegetable. They will also explore newspaper articles based on the adventures of the mischievous Evil Pea.

Music

This term, the children will continue to build a repertoire of songs whilst using percussion instruments. The children will also take part in a Junk Shop Orchestra workshop.

Spanish

apples and bananas.

This half term, the children will learn the names of fruit and vegetables, in Spanish. Whilst recalling prior learning of counting, they will learn to use plural forms of nouns. For example,

Physical Education

Games -

Striking a Ball

The children will learn how to hold and use a racket. They will practise identifying a target and understand the need for accuracy. Through games, they will develop their rolling and retrieval skills.

Dance –

The Mystery Toy Box

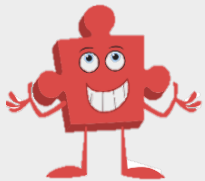

In dance, they will respond, perform and link movements to a stimulus. They will use language associated with movement before performing and evaluating their performance.

D&T

The children will conduct a survey to assess the most popular fruit in class. They will then design their own fruit platter to make and evaluate. They will also develop their cutting skills and learn how to cut food safely.

PHSE & P4C: People Who Help Us

The children will be discussing people who can help them within their community. They will also discuss the importance of family and the different types of family there are in our community.

Art

This half term the children will explore and take inspiration from Andy Goldsworthy. They will design and make their own sculpture using a variety of resources such as paper, clay, sticks and leaves.

Computing

The children will learn to give and follow simple directions using the vocabulary: right, left, forwards, backwards, turn and move. They will use these skills to programme a route using BeeBots.

Science

The children will be learning all about plants. They will plant their own bean and record their growth over the term while also comparing and sorting leaves from evergreen and deciduous trees.
